GURGAON: In what could spell major relief to city commuters and homebuyers living sectors 80 to 115 along the Dwarka Expressway, the National Highways Authority of India (NHAI) is all set to construct a 10km elevated road. The tenders for the project were floated on Monday.

The elevated road will start from Gurgaon-Delhi border and end near the Basai railway overbridge in Sector 100. The cost of the entire project has been estimated at ₹1,800 crore, a NHAI official said.

Dinesh Yadav, general manager, NHAI, said, "The Dwarka Expressway will be executed in phases. In the first phase, tenders

have been floated for the 10km road which will be elevated. The purpose of the elevated road is to separate local traffic from the expressway's long distance traffic."

In October 2016, the NHAI took over the Northern Peripheral Road, which is also known as the Dwarka Expressway, from the Haryana government and named it NH 248-B.

The NPR's custodian authority earlier was the Haryana Urban Development Authority for 18km portion in Gurgaon between Delhi border and Kherki Daula toll plaza. After NHAI took over it, the length was extended up to near Shiv Murti, Mahipalpur.

Before the NHAI took it over, the Huda had completed the

16.5km portion in Gurgaon and also an RoB on Delhi-Rewari railway track at Basai.

"We have been waiting for the

completion of the Dwarka Expressway as the delay has adversely affected other development work in new sectors. We

hope the NHAI will complete the expressway and bring us relief. I believe tens of thousands of homebuyers like me are waiting for the completion of their dream homes," said Prakhar Sahay, a homebuyer.

"This is an important development as it will provide easy access to various sectors and help bridge the connectivity gap along the NPR," said Pankaj Bansal, Director, M3M Group.

Ravish Kapoor, Director of Elan Group, also hailed the development and called the project "an engine to boost growth in new Gurgaon" by improving better connectivity to the expressway.

The NHAI has been constructing underpasses at Hero Honda Chowk, Rajiv Chowk, Signature Tower and Iffco Chowk.

Dinesh Yadav, general manager, NHAI, said, “The Dwarka Expressway will be executed in phases. In the first phase, tenders have been floated for the 10km road which will be elevated. The purpose of the elevated road is to separate local traffic from the expressway’s long distance traffic.”

In October 2016, the NHAI took over the Northern Peripheral Road, which is also known as the Dwarka Expressway, from the Haryana government and named it NH 248-B.

The NPR’s custodian authority earlier was the Haryana Urban Development Authority for 18-km portion in Gurgaon between Delhi border and Kherki Daula toll plaza. After NHAI took over it, the length was extended up to near Shiv Murti, Mahipalpur.

Before the NHAI took it over, the Huda had completed the 16.5km portion in Gurgaon and also an RoB on Delhi-Rewari railway track at Basai.

“We have been waiting for the completion of the Dwarka Expressway as the delay has adversely affected other development work in new sectors. We hope the NHAI will complete the expressway and bring us relief. I believe tens of thousands of homebuyers like me are waiting for the completion of their dream homes,” said Prakhar Sahay, a homebuyer.

“This is an important development as it will provide easy access to various sectors and help bridge the connectivity gap along the NPR,” said Pankaj Bansal, Director, M3M Group.

Ravish Kapoor, Director of Elan Group, also hailed the development and called the project “an engine to boost growth in new Gurgaon” by improving better connectivity to the expressway.

The NHAI has been constructing underpasses at Hero Honda Chowk, Rajiv Chowk, Signature Tower and Iffco Chowk. The highways authority constructed a flyover at Hero Honda Chowk and construction is underway for the two elevated U-turns at Iffco Chowk while another U-turn underpass is proposed on the highway near Ambience mall.
